

Minneapolis Area REALTORS® invites you to use the following messages to call on decision makers for meaningful change in our systems and communities.

City of Minneapolis

Cut and paste the following message into the webforms provided at these links: [Minneapolis Mayor Jacob Frey](#), [Minneapolis City Council](#)

My name is **(First, Last)**. I live in Minneapolis **Ward # (if applicable)** or I live on the **(block #)** of **(Street Name)**. I am very concerned about the safety of all our citizens in Minneapolis. Minneapolis residents deserve a police force we can count to respond in a timely, effective, and safe manner. No member of the community should live in fear that their next encounter with law enforcement will result in such a deadly tragedy. I call on the Mayor and City Council to restore human dignity to our community policing efforts. Minneapolis City Council must act to set high standards, implementing policing practices that prioritizes preserving human life and deescalating conflict. Protecting the community and valuing the dignity of every human life is a value we all share and it should be the first and foremost priority for the Minneapolis Police Department. Please work to enact meaningful changes to training, practices, and local policies for more effective community policing.

Governor & State Legislature

Cut and paste the following message into the webform provided: [Governor Tim Walz](#), [MN Legislature Directory](#)

My name is **(First, Last)**. I live in **(City)**. I am very concerned about the safety of all our citizens in Minnesota. Minnesota residents deserve a police force we can count on to respond in a timely, effective, and safe manner. No member of the community should live in fear that their next encounter with law enforcement will result in such a deadly tragedy. I call on the Governor and Legislature to restore human dignity to our community policing efforts. The Minnesota Legislature must act to set high standards, implementing policing practices that prioritizes preserving human life and deescalating conflict. Protecting the community and valuing the dignity of every human life is a value we all share as Minnesotans and it should be the first and foremost priority for law enforcement across our great state. Please work to help pass meaningful changes to training, practices, and provide more funding for local resources for more effective community policing.
